This exhibit explores two integral pieces of the Woodstock experience: the Bindy Bazaar marketplace and the festival's pioneering approach to on-site camping. ### Museum at Bethel Woods

#### *WHAT IS THE MUSEUM AT BETHEL WOODS?*

The Museum at Bethel Woods is an integral part of the Bethel Woods Center for the Arts, which inspires people to lead creative and engaged lives through its numerous concerts, events, festivals, programs, and exhibitions, all situated on the site of the 1969 Woodstock Music and Art Fair.

The Museum, which opened to the public in June 2008, is housed in a beautiful, LEED-certified green building, situated at the top of the Woodstock festival hillside. Within the building, in addition to the Main Exhibit Gallery, Museum Shop, and Muse Café (offering both indoor and outdoor seating), there is a spacious Event Gallery where intimate concerts and other events are frequently held. On the lower level, the Special Exhibit Gallery, Corridor Gallery, and public restrooms are located, as well as the Museum's administrative offices.

Through our award-winning Main Exhibit, "Woodstock and The Sixties," and various and engaging special exhibitions, a growing collection of artifacts and reference materials, museum programs for children, youth, and adults, as well as the preserved historical site, the Museum makes the lessons and ideals of The Sixties relevant and accessible today.

The Museum embodies the key ideas of the era we interpret—peace, respect, cooperation, creativity, engagement, and a connection to the planet we inhabit and all the people who share it. In addition to preserving and interpreting an era, the Museum is actively involved in our community—through education, economic development, and historic preservation—to encourage social responsibility among our visitors and supporters and to advocate for issues that make Sullivan County, and the world at large, a better place. To borrow from 1960s ideology, everyone has the power to change the world.

## **The Museum at Bethel Woods Unveils 2025 Special Exhibit: How Bazaar: Arts, Crafts, & Camping at Woodstock**

March 10, 2025 (Bethel, NY) – The Museum at Bethel Woods, situated on the historic site of the 1969 Woodstock Music and Art Fair, is pleased to announce the opening of its 2025 Special Exhibit, "How Bazaar: Arts, Crafts, & Camping at Woodstock." This exhibit explores two integral pieces of the Woodstock experience: the Bindy Bazaar marketplace and the festival's pioneering approach to on-site camping. Drawing on over five years of extensive research, oral histories, and archaeological investigations, this exhibit invites visitors to explore the rich and often overlooked elements that contributed to Woodstock's legacy.

Woodstock was one of the first major music festivals to offer on-site camping, allowing attendees to remain immersed in the experience without ever leaving the grounds. This communal atmosphere fostered a unique sense of togetherness that became a central aspect of Woodstock's cultural significance. Vast stretches of farmland east and west of the festival site were transformed into vibrant tent cities, providing festival-goers with a peaceful escape in nature as they enjoyed three days of peace, love, and music.

Another key feature of the festival was the Bindy Bazaar, a wooded marketplace designed to serve as the festival's main entrance. Featuring winding trails and vendor booths nestled among the trees, the Bindy Bazaar was intended to bridge the gap between the real world and the festival experience. Attendees strolled through trails like Gentle Path, Groovy Way, and High Way, where artisans and vendors sold a variety of crafts, clothing, and handmade goods. Over the years, extensive research and preservation efforts have uncovered new insights into this area, leading to the restoration of the Bindy Bazaar trails and a deeper understanding of its role in the Woodstock story.

The launch of this exhibit coincides with a new era for Bethel Woods, as the historic site now offers camping opportunities for concert attendees, allowing modern visitors to experience the same landscape that welcomed 450,000 people during the iconic 1969 festival.

"This exhibition is the culmination of years of dedicated research, storytelling, and archaeological exploration, aimed at uncovering a deeper understanding of the Woodstock experience and the nature of our historic site," said Dr. Neal V. Hitch, Museum Director and Senior Curator. "As we continue to activate and preserve new areas of the historic site, we are excited to offer visitors the opportunity to connect with the festival's legacy in a meaningful way and see how its spirit continues to inspire us today."

The exhibition will showcase a selection of artifacts collected over several years in preparation for this event. Many of these connections with donors were fostered through the Museum's ongoing Oral History Initiative, which launched in 2020 and has since preserved over 1,000 stories.

Photographs captured by David Shelburne and generously donated by his wife, Ellen Shelburne, will bring the Woodstock experience to life as large-scale murals of the Bindy Bazaar Woods and Best Road campgrounds. Ellen, who was interviewed for the Museum's oral history project in 2023, returned to the festival site in 2024 for the first time to experience Bethel Woods' new glamping offering and revisit her memories of Woodstock. This journey was highlighted in an AP article.

How Bazaar: Arts, Crafts, & Camping at Woodstock will be open to the public from April 1 through December 31, 2025. Admission to the Special Exhibit is included with a ticket to The Museum at Bethel Woods or can be purchased separately for \$5. Tickets are on sale now at [www.BethelWoodsCenter.org](http://www.BethelWoodsCenter.org).

## About Bethel Woods Center for the Arts

Bethel Woods Center for the Arts, situated at the historic site of the 1969 Woodstock festival, is dedicated to preserving its rich legacy of peace and music by offering exceptional experiences and access to the arts. With the belief that the world can be made better through the power of music and the arts, Bethel Woods offers music, visual, performing, and creative arts programming to the community, helping people of all ages discover and tap into their creative potential.

Located 90 miles north of New York City in Bethel, NY, the lush 800-acre campus features the Pavilion Stage amphitheater, which seats 16,000, an intimate 422-seat indoor Event Gallery, and a Conservatory for arts education programming. The award-winning Museum at Bethel Woods carries on the history, spirit, and learnings of the 1960s and the Woodstock Music & Art Fair through the preservation and interpretation of the historic site. Bethel Woods is a not-for-profit organization that relies on the generous support of individuals, corporations, and foundations. For more information, please visit [www.BethelWoodsCenter.org](http://www.BethelWoodsCenter.org).

**THE PERMANENT MUSEUM COLLECTION:** At the core of every great museum is a great collection. Even before the Museum at Bethel Woods opened its doors in 2008, it began carefully collecting authentic items to help tell the story of the Woodstock festival and 1960s popular culture, politics, and societal change. Through the generosity of our donors, the Museum has assembled an impressive collection of period photographs, film footage, newspapers, and ephemera, as well as clothing, jewelry, posters, and other artifacts, which are utilized in exhibits and for scholarly research. As is the case at other museums, a significant portion of the Bethel Woods Collection is stored in secure facilities rather than on display. This gives the Museum the flexibility to rotate sensitive items off display from time to time and to have significant items in reserve to enliven the Main Exhibit or to draw upon for Special Exhibits.
